POPULAR MECHANICS INDEX—1978

This Index covers every article that appeared in the 1978 issues of *Popular Mechanics*, including the short items in monthly features such as "Appliance Clinic" and "Imports and Motorsports." (For the convenience of our advertisers, we publish regional editions of *PM*. On rare occasions this may result in the deletion of a minor article in a certain edition.)

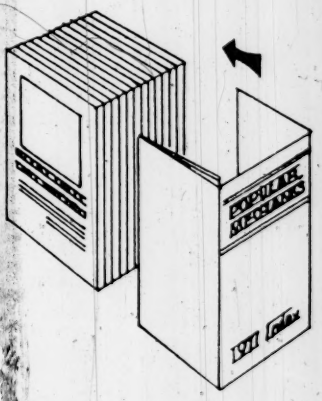
The Index is thoroughly cross-referenced. For example, you will find an article on how to build a radial-arm saw bench listed under "Radial-arm saws," "Saws, radial-arm," "Storage," and "Workbenches." Broad categories such as "Fishing," "Photography," and "Safety" enable you to locate all articles on a general subject published throughout the year.

IMPORTANT NOTICE: ***Italicized* entries indicate articles of how-to nature —how to make, build, repair, service, use, etc. Entries in Roman (regular) type are for articles of general information, covering events, new products, achievements, etc.**

Both how-to and general articles on the same subject are indexed under one heading. Thus under "Toys" you will find *italicized entries for articles on how to make toys* as well as entries in Roman type for articles on new toys that are on the market.

An Index entry marked JE-51 indicates the article appeared on Page 51 of the June issue. The following abbreviations for the months are used:

JA	January	JY	July
FE	February	AU	August
MR	March	SE	September
AP	April	OC	October
MY	May	NO	November
JE	June	DE	December



To use your Index as a shelf binder: The cover of the Index is made and folded so that it exactly encompasses the 12 issues of 1978, thus providing an attractive shelf binder. To use your Index as a shelf binder, face the shelf and insert the *short tab* of the Index on one side of the accumulated issues and the *stapled fold* on the other side (see illustration). If you prefer, of course, the Index can simply be folded flat and filed on a bookshelf with the 1978 issues of *PM*.

Separate Indexes for the years 1971 through 1977 still are available for $2.99 *each* from *Popular Mechanics*, Box 1014, Radio City Station, New York, N.Y. 10019. Indexes for earlier years are not available.
